

# Certificate Of Analysis/Conformity

The microbiological analysis performed has a LoD of <10 (first dilution / quantitative analysis). The result <10 means that the named species / group couldn't be detected in the test.

**GMO statement:**

The product is derived from genetically modified soybeans.

The product is subject to labeling according to regulations 1829/2003/EC and 1830/2003/EC.

The Cargill Certificate of Analysis (CoA) relates only to the product as originally supplied by Cargill. Any use of the CoA in any further business transactions is strictly subject to the absence of any physical manipulation, alteration, repackaging or commingling of the product and the absence of any intentional or unintentional change to the original labelling, the CoA itself or the original packaging. Cargill shall not be liable for any damages resulting from or related to the improper use of the CoA by infringement of this restriction of use or otherwise

computer/electronically printed and therefore no signature
